SUMMARY

- Result-oriented Full Stack Developer with **3.5 years of experience** in building, deploying, and maintaining scalable web applications.
- **Strong backend expertise** with MERN Stack, PHP, Node.js, and TypeScript; deployed high-performance applications with secure APIs, scalable databases, and modular architecture.
- Proficient in **frontend development and UI/UX design**, with strong command over CSS, Figma, and responsive design. Experienced in conducting UI/UX audits, creating wireframes, and translating designs into pixel-perfect web pages.
- Successfully delivered and **managed 60+ websites and software products**, both independently and in team environments.
- Deep understanding of **business psychology and user behavior**, enabling the design of conversion-optimized interfaces.
- Currently working at Digiron India, contributing significantly to both frontend design and backend systems.
- Passionate about **automation and efficiency**; actively **leverages AI tools** (e.g., ChatGPT, GitHub Copilot) to accelerate development and improve code quality.

TECHNICAL SKILLS

Javascript	Typescript	PHP
AWS	User Research	CSS
AI Tools	Jenkins	Testing Tools

PROFESSIONAL EXPERIENCE

- Digiron India Private Limited - Senior Software Developer

Apr 2025 - Present

  - Led client website management for international projects, ensuring quality and timely delivery.
  - Proficient in PHP frameworks (Laravel, CodeIgniter), with strong experience in Shopify and WordPress.
  - Optimized workflows to boost efficiency and cut costs by up to 15%.
- Digiron India Private Limited - Associate Software Developer

Mar 2024 - Apr 2025

  - Led end-to-end development for global client projects across frontend and backend.
  - Translated business needs into scalable technical solutions with strong architectural focus.
  - Refactored and optimized codebases to boost performance, security, and maintainability.
  - Coordinated with cross-functional teams to deliver robust, on-time digital products.
  - Improved application speed and reliability through efficient coding practices.
- Sharpener - Software Developer Trainee

July 2023- Mar 2024

  - Completed hands-on training in MERN stack development, covering real-world project scenarios.
  - Designed and built full-stack applications with intuitive UIs and robust API/database integration.
  - Strengthened debugging skills and optimized performance across frontend and backend.
  - Contributed to team reviews and collaborated on group projects to follow best coding practices.

**SRC Cyber Solutions LLP - Associate Website Developer**

Jan 2023- Jun 2023

- Managed the company website and engineered a secure partner portal for real-time data access.
- Optimized page load speed and improved backend data retrieval workflows.
- Maintained strict adherence to cybersecurity protocols and data protection standards.

**Blackcoffer - Software Engineer Associate**

Dec 2022- Jan 2023

- Contributed to frontend feature development for the HireKingdom hiring platform using React.
- Gained hands-on experience with React fundamentals for building interactive UIs.
- Supported debugging, testing, and implementation of performance-driven features.

**Codersoftech - Software Developer Intern**

Sep 2022- Dec 2022

- Worked on company website and client projects using PHP frameworks for dynamic development.
- Built robust backend logic, integrated REST APIs, and ensured smooth data flow.
- Participated in routine updates, code maintenance, and feature rollouts.
- Gained practical exposure to client communication and project lifecycle management.

EDUCATION

**Master of Computer Applications**

2021 - 2023

NIET, Greater Noida

**Bachelor of Science - BS, Mathematics**

2018-2021

BBMKU, Dhanbad

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Bengali.
- Certifications:** Wipro NASSCOM Certified
